Mission Statement

The transition program is committed to the development and enhancement of independent living skills of students as they transition from school to adult life. The transition program is one option for students in the special education continuum of services provided by North DuPage Special Education Cooperative.

The Transition Program

Transition is the process of transferring the responsibilities from the educational team to the students and their families/caregivers.

The Transition Program is for students who have completed four years of high school and/or reached 19 years of age. Students come from our High School classrooms at Fenton and Lake Park High Schools.

The program focuses on functional life skills that are embedded into daily activities, as part of the state goals and Illinois Learning Standards. The emphasis is to increase students' levels of independence with decreasing levels of staff support across all environments.

We have a commitment to provide a positive learning environment which promotes a cooperative instructional partnership among family, school and community; specifically with agencies that will be part of the students' lives when they leave the educational environment.

CURRICULUM

Instruction

- Functional Reading
- Applied Math
- Money Management/Budget
- Personal Management and Schedules
- Post Secondary Education (College of DuPage)

Community

- Grocery/Retail Shopping
- Accessing/Utilizing Community Resources
